

**ICAR-NBAIR Scientists distribute seeds of mosaic resistant varieties of black gram and green gram to the farmers under MGMT programme.**

Mera Gaun Mera Gaurav (MGMG) team led by Dr T M Shivalingaswamy along with team members Dr S K Jalali, Dr T Venkatesan and Dr G Sivakumar visited the adopted villages in Dharmapuri area on 26.07.2016. The main purpose of the visit was to distribute the seeds of mosaic resistant varieties of black gram and green gram supplied by ICAR- IIPR, Kanpur. Around 25 farmers participated in the program. The seeds of mosaic resistant varieties were distributed by the team members to the farmers. The farmers sowed the seeds on the same day in their fields.
