

ICAR-NBAIR Observes World Environment Day

The world environment day was observed at ICAR-National Bureau of Agricultural Insect Resources, Bangalore on June 6, 2020 to create awareness about nature and its conservation. In view of the current lockdown a lecture was arranged through video conference. Dr. Priyadarshan Dharmarajan, Senior Fellow & Program Leader (Ecosystems & Global change). ATREE, Bangalore delivered a lecture on “Insect Biodiversity”. Importance of insects in sustaining our planet’s wellbeing and ways and means to conserve natural enemies, pollinators, the threats they face and their contribution in food production and food security was elaborated by the invited speaker. Dr. N. Bakthavatsalam, Director, ICAR-NBAIR welcomed the participants to the World Environment Day celebration. All the staff of ICAR-NBAIR and students from different Universities participated in this virtual meeting.
