

**Report on Khet Bachao Abhiyan & mgmg Programme Conducted at Kilanur,
Pudurnadu, and Mambakkam, in Tirupattur and Kandili blocks of Tirupattur District,
Tamil Nadu on 25 June 2026**

Dr. N. N. Rajgopal of ICAR-NBAIR visited three villages, Kilanur, Pudurnadu, and Mambakkam, in Tirupattur and Kandili blocks of Tirupattur District, Tamil Nadu, on 25 June 2026 under the Khet Bachao Abhiyan. During the visit, the team interacted with the women farmers and highlighted the importance of balanced fertilizer use and regular soil sampling and testing to ensure sustainable crop production and improved soil health. The scientist provided guidance on adopting scientific nutrient-management practices to enhance crop productivity. He also advised groundnut farmers on the need for balanced fertilizer application in the ecosystem and emphasized the use of appropriate biological control agents for managing insect pests in the groundnut cropping system.
