

Technology Transfer and MoU Exchange

A Technology Transfer and Memorandum of Understanding (MoU) Exchange was held between ICAR–National Bureau of Agricultural Insect Resources (ICAR-NBAIR), Bengaluru, and Agriculture Micro-Genome Research Center, Nashik, Maharashtra, India, on 05th October 2026.

The following technologies were transferred to the Agriculture Micro-Genome Research Center:

1. **Shatpada Fruit Fly Trap** – A controlled-release, semiochemical-based solution for the management of fruit flies.
2. **Shatpada *Helicoverpa armigera* Lure** – A reusable, controlled-release pheromone formulation for the management of *Helicoverpa armigera* (Hübner).
3. **Shatpada Melon Fly Lure** – A controlled-release, semiochemical-based solution for the management of melon flies.
